Experience

Altum Inc. — AI word processor Nov. 2019 – Oct. 2020

UX DESIGNER (REMOTE)

Helped development and leadership understand design requirements by making wireframes and user flows to illustrate intended UI interactions.

Result: Contributed to production-ready interfaces and intuitive interactions that increased user activity.

Altum Inc. — Readability analyzer June 2020 – July 2020

UX DESIGNER (REMOTE)

Collaborated with development to release final implementation on time through improving existing design process to expedite communication.

Result: Reduced delays in overall design and development pipelines.

Altum Inc. — Dashboard design Nov. 2019 – Oct. 2020

UX DESIGNER (REMOTE)

Maintained clear communication with engineers by learning and using HTML and CSS framework to quickly point out necessary design elements.

Result: Enabled swifter design and development process that resulted in stronger unified understanding of the product.

Altum Inc. — Landing site Nov. 2019 – Oct. 2020

UX DESIGNER (REMOTE)

Created an appealing landing page for potential customers by starting with mobile design layouts to ensure responsive and quality end-user experience.

Result: Responsive landing page that helped lead to increased conversions and subscriptions.

Altum Inc. — Design system Aug. 2020 – Oct. 2020

UX DESIGNER (REMOTE)

Established ongoing platform design system by researching and implementing grid system, type system, etc. to unify product's visual design.

Result: More visually consistent and attractive visual design that helped improve startup's brand image.
